

Quonset West Channel & Port of Davisville NORTH KINGSTON, RHODE ISLAND

Cashman was contracted by Quonset Development Corporation for Maintenance and Improvement dredging of the material from the West Quonset Channel & Port of Davisville. Additionally, Cashman completed 30,000sqft of rock treatment by drilling and blasting.

PROJECT HIGHLIGHTS

- Cashman’s newest drill barge *M.J. Verrochi* was used for the first time.
- Over 250,000 cubic yards (CY) of material was removed.
- All dredged material was disposed off at at Rhode Island Sound Disposal Site.
- The Dale Pyatt was the only Dredge used on the job, and was accompanied by numerous scows; MERC Shevlin, Kurt Shulte, Mighty Quinn, Joe Verrochi & Eddie Carroll.
